

## LIBRARY QEP: Real-World Problem Solving

Creating a campus environment that is friendly to students with disabilities

The challenge that has been brought before us is to research the needs of students with ADA-recognized disabilities at Columbus State University and design potentially viable solutions which will aid these students to succeed in their academic endeavors. Projects will be judged for design viability by a panel of judges.

## LIBRARY QEP: Real-World Problem Solving

**Delivery of Your Presentation:** You are going to present to your solution to the world. Columbus State University has an event called **Tower Day**.

“Tower Day is the annual showcase of undergraduate research and creative endeavors that is the cornerstone of the Academic Week of Excellence. Students from all disciplines have been invited to present their scholarly activities to our community to share their discoveries and inspire others to study in and learn more about their fields.” - 2023 Tower Day PDF

Your team will present your research in the poster session. More details of what is expected will be explained in the activity entitled **Tower Day Presentation!**

DUE: April 26<sup>th</sup>

200 Points

**Reflect on your Solutions:** Your team will spend some time reflecting on your project. Your team will perform an exercise on Reflection and Resolution. For more details see **Reflection and Resolution Exercise**.

DUE: April 30<sup>th</sup>

50 Points
